Skin Rejuvenation
By Hezell Montoya, Licensed Massage Therapist, Licensed Medical Aesthetician

A popular IPL (Intense Pulsed Light) treatment is Elos SRA+. Elos is the first technology to combine light energies with bipolar radio frequency to precisely and safely lighten and fade skin imperfections for all skin types. This combination of light energy and radio frequency is commonly referred to as SRA, meaning skin rejuvenation advanced.

This skin rejuvenating procedure safely targets pigmented areas such as brown spots, freckles, redness, and rosacea. This treatment has minimal downtime, is fast, comfortable and safe. A consultation is recommended in order to evaluate skin condition and recommend the number of treatments needed.

Schedule a complimentary consultation to see what Elos SRA can do for you!

An Inside Look at Two Body Contouring Treatments: Ultherapy and VelaShape

Ultherapy
By Jennifer Yount, Licensed Medical Aesthetician

We all know summertime is a great time to focus on getting our bodies in shape. But did you also know that summer is also an excellent time to tone and tighten the skin on our face, neck and décolleté? There is a treatment designed to do this, it involves no downtime, and does not require you to stay out of the sun or avoid your favorite summer activities. What is it?

Ultherapy is an FDA approved procedure that is one of the most advanced and effective tightening treatments for the face, neck and chest as it targets the deepest layer of the skin - precisely where collagen is formed! It is not a laser. It actually uses ultrasound technology to bypass the top layer of skin, resulting in no trauma to the surface of the face at all! After the heat stimulation to the collagen is delivered, the body regenerates new collagen and connective tissue. This process takes anywhere from 3-6 months to see optimal results. A summertime treatment can yield some fantastic results for the holiday season!

Our collagen starts to decline after the age of 30. Most women and men are seeing even mild changes in the laxity soon after that. Ultherapy is a fantastic way to maintain a very youthful, healthy appearance! For those that are not ready to do cosmetic fillers, Ultherapy offers the perfect solution. For those that are open to or are currently using cosmetic fillers, Ultherapy is the perfect compliment to firm the skin in conjunction with their current treatment plan, yielding truly amazing results that were once only achieved by invasive facial surgery.

Hull Aesthetics offers complimentary consultations to educate our patients on the ideal treatments for their needs and budget. We are sure you will love this treatment as much as we do!

VelaShape
By Randi Saunders, Licensed Medical Aesthetician

This time of year is a great time to start treating areas that are prone to cellulite so we can feel more comfortable in a swimsuit on the beach. It is a unique, easy to use, comfortable, deep therapeutic body contouring treatment that delivers consistent results that can be reproduced time after time.

VelaShape has always been the perfect, non-surgical answer for treating those ‘problem areas’ that cause women to feel so displeased about their body image. Now, VelaShape has unveiled the latest in technology, complete with a new design. Introducing the more powerful VelaShape III.

Schedule a complimentary consultation to find out if VelaShape is right for you.
The GlyPro Exfoliating Facial Cleanser is one of my ‘must have’ products because it allows me to get an exceptional exfoliation at home. It gently scrubs away surface skin cells to reveal a soft and refreshed complexion underneath.

Glycolic acid is an exfoliator. It safely removes the outer layer of dead skin cells on the surface of your skin, bringing fresh, new skin to the surface. This is beneficial for those who are looking for ingredients that help with anti-aging. Glycolic acid can also help lighten discoloration of the skin, such as sun spots or age spots and help those with acne-prone and blackhead-prone skin.

I use this cleanser about three times a week and my skin feels soft, rejuvenated and radiant. For more information about this and other SkinMedica® products, stop by or give us a call.
